

PORT OF WATERFORD MASTERPLAN 2020/2044.

10 Development proposals

The options considered for port development are shown in the Figure below.

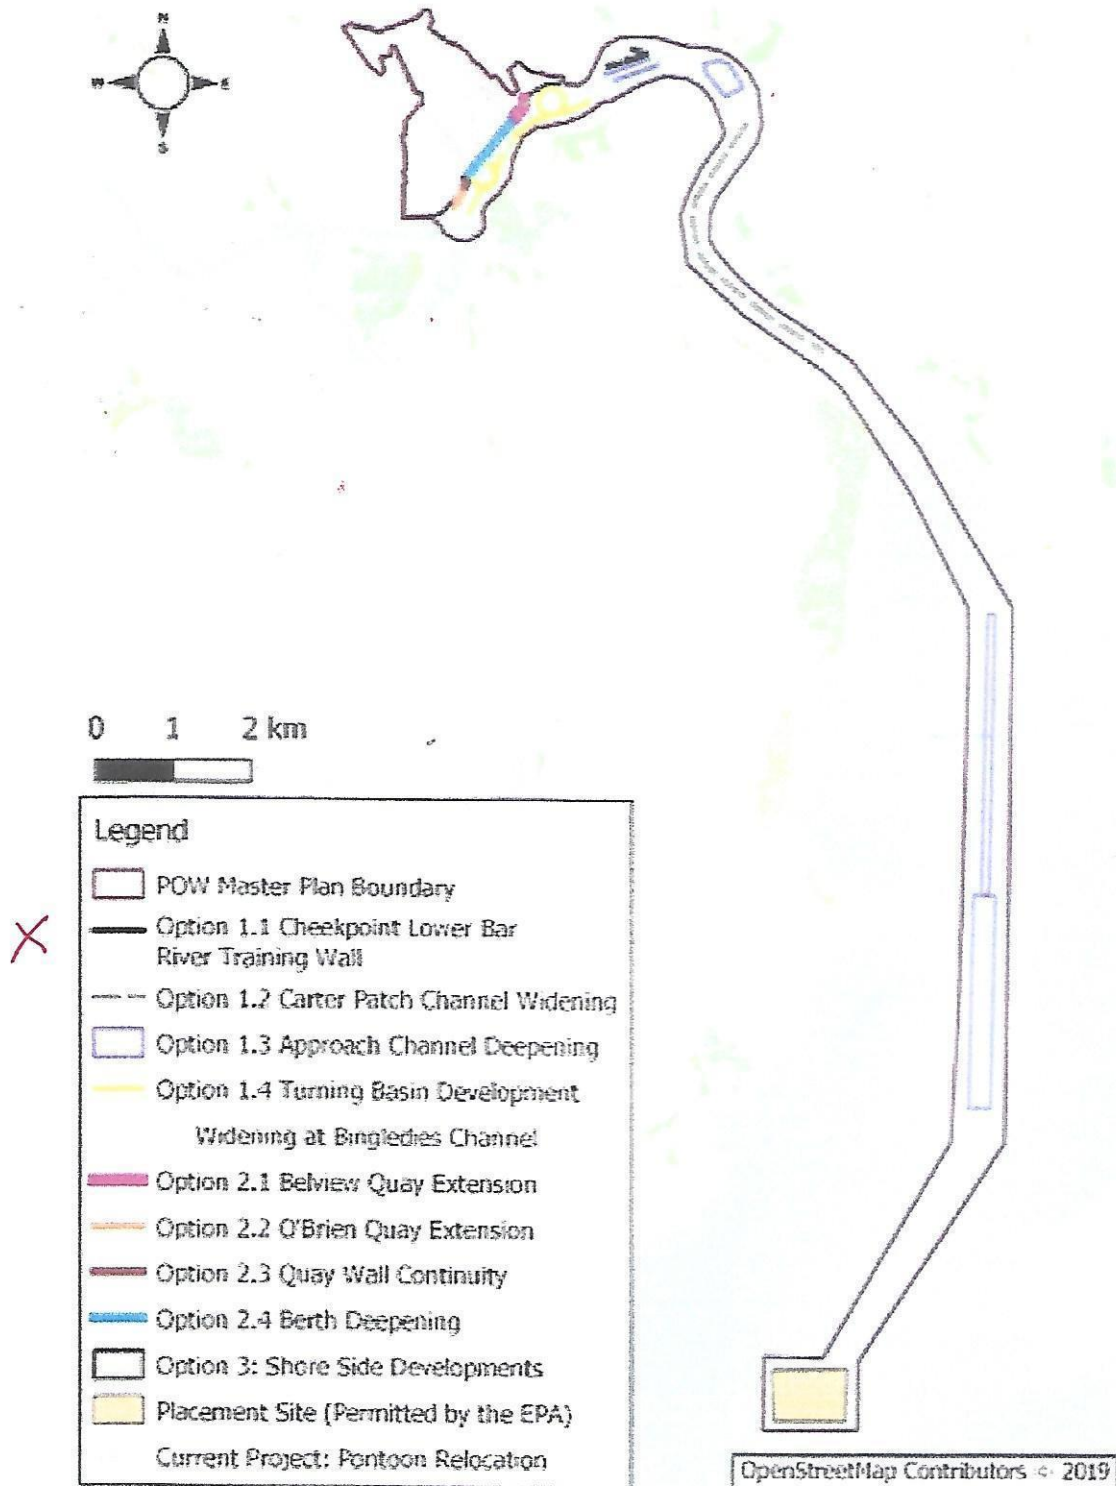

Figure 8: Current and proposed development projects for review

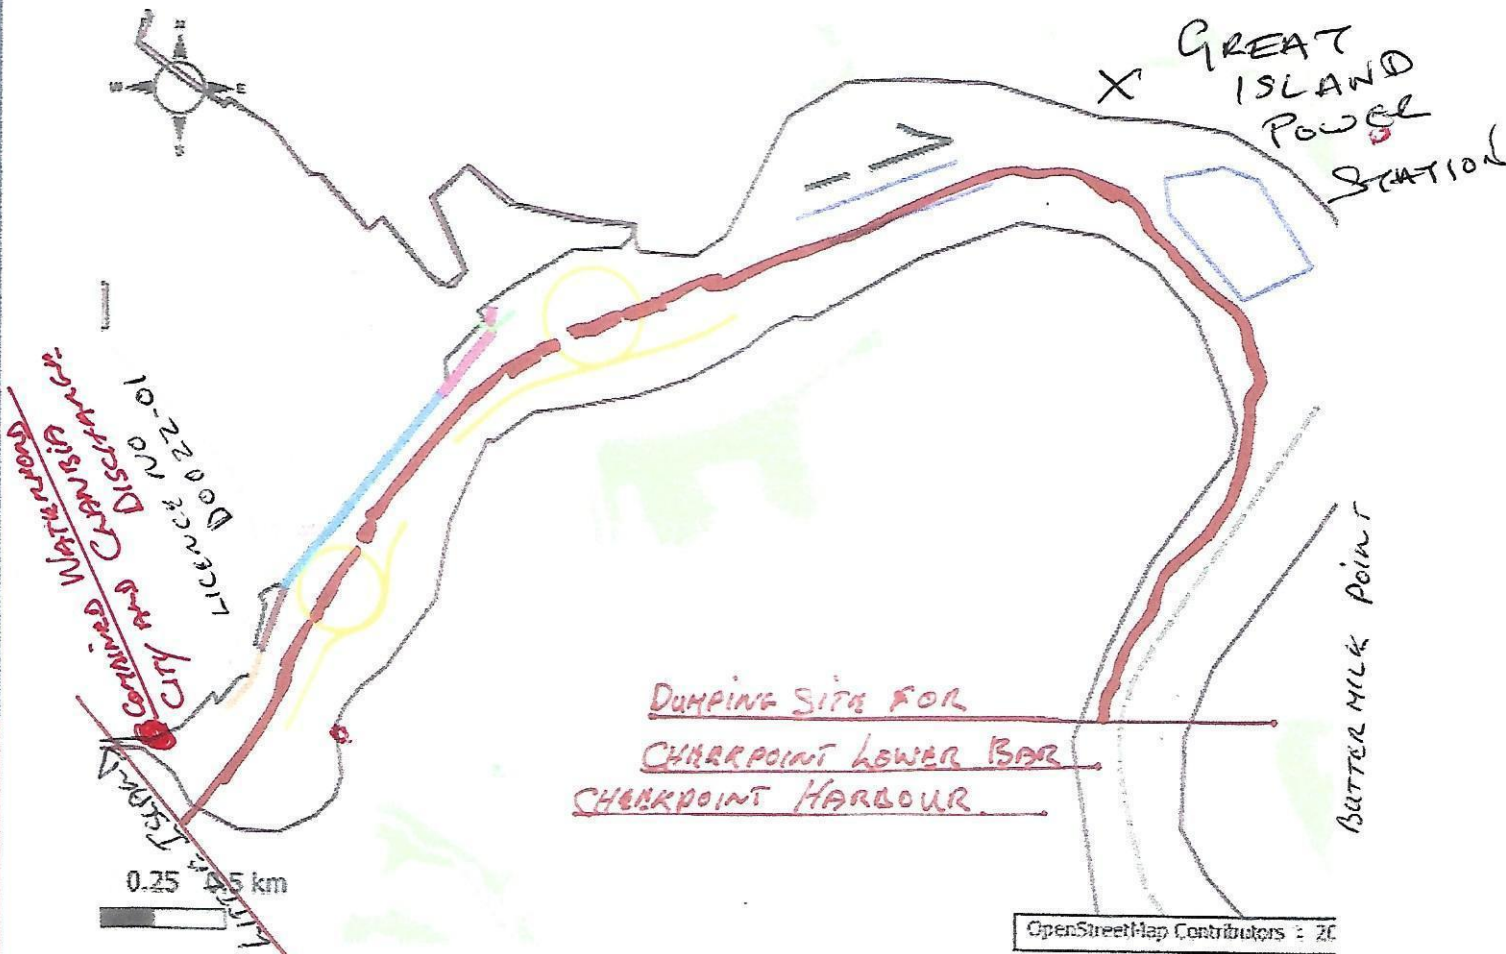

Figure 9 Details of proposed Masterplan Projects at Belview

10.1 Options to minimise maintenance dredging and improve marine access

Option 1.1 - Cheekpoint Lower Bar River Training Wall

This will help to minimise future maintenance dredging requirements by controlling and reducing sedimentation. The project envisages the construction of two lengths of sheet piled training wall, one a vee shaped wall approximately 495m long and the other a straight wall 130m long. The proposed layout of the sheet piled training walls is shown in Figure 10 below and a photomontage of the proposed sheet piled walls at low and high tide is shown in Figure 11 A and B.
