Dear Sir/Madam,

With regard to the above licence application, I wish to support CWPL in their request for a licence.

I believe that they have complied with your requirements and given detailed responses to your queries.

There is a pressing need to conclude on your deliberations in order that this project can proceed without further delay.

This country is way behind in the development of off shore wind energy and in the absence of a sense of urgency, we leave ourselves open to hefty fines from the EU unless we can demonstrate that we are finally on the move this and similar projects.

Your faithfully,

Alan Richardson
