Subject: RE: Request for Observations from Public Bodies MUL230037

Categories: Joanne

Good day,

Good day,

After careful consideration, the Marine Survey Office has no objection to the marine surveys relating to inform location of outfall discharge location from new WWTP proposed by Uisce Eireann from a navigational safety perspective.

However, the following conditions shall be noted;

1. There are two submarine power cables (SC) within the proposed marine survey area. The siting of any ADCP's, tidal gauges or any other survey equipment including buoyage markers must not interfere with the established submarine cables.
2. Active Fish Farm are established within the proposed survey area. Caution and consideration shall be adopted by the applicant in the establishment of any ADCP's, tidal gauges or any other survey equipment including buoyage markers

3. The Licensee shall ensure all appropriate measures are taken for the duration of any on-site activity to ensure the safety of navigation is maintained. Any hazard to safe navigation shall be easily identifiable to all maritime users operating within or in the proximity of the license area.
4. The Licensee shall, through consultation and agreement with the Department of Transport, Marine Survey Office, and Commissioners of Irish Lights, arrange for the publication of a Marine Notice through the Maritime Safety Policy Division. All applications for the issue of a Marine Notice shall be submitted supported by MAC reference. Where a Marine Notice is published and subsequent changes to dates of operations, location, area of deployment or vessels engaged in the activity, the licensee must inform MSPD of such changes in a prompt and timely manner, so that relevant safety of navigation information is provided in an updated Marine Notice.
5. The promulgation and frequency of Navtex and radio broadcast warnings shall be agreed in advance with the Irish Coast Guard for the duration of the license period.
6. The marking and lighting of any moored instruments ,such as ADCP's, shall be carried out in consultation with the Marine Survey Office and Commissioners of Irish Lights. Lighting and marking shall be compliant with International Association of Aids to Navigation (IALA) requirements. Information regarding the position of any markings which create a hazard to navigation shall be promulgated to the mariner through the publication of a marine notice and all means appropriate.
7. In advance, and throughout the consent period the applicant shall be obliged to inform United Kingdom Hydrographic Office (UKHO), of any activities or establishment of all equipment, be that temporary or otherwise, and bathymetry data that is obtained so that appropriate navigation charts can be updated. Email: sdr@UKHO.gov.uk and the INFOMAR program at support@geodata.gov.ie
8. All vessels engaged in the proposed activities must conform to Irish Certification standards (certified and licenced) and, manned by suitably qualified personnel, additionally where equipment is carried an Irish Load line survey may be required. The applicant should contact the Marine Survey Office Dublin for clarification in relation to the above matters.

Regards,

Capt. Stephen Riordan
