GIS Shapefile to ensure where the MUL area adjoins or abuts the land, the boundary of the MAC area should coincide with and follow exactly the High Water Mark as defined by the Chief Boundary Surveyor with reference to the MARA Technical Mapping Guidance Note "Where the MAC/MUL area adjoins or abuts the land, the boundary of the MAC/MUL area should coincide with and follow exactly the High Water Mark as defined by the Chief Boundary Surveyor.	The shapefile has been modified to match the High Water Mark as defined by the Chief Boundary Surveyor. Please find the associated zip file attached.
GIS shapefile to ensure that it adheres to MARA's Shapefile Schema: i. Attribute Field: "File_R_N" e.g. MUL##### as assigned by MARA. ii. Attribute Field: "Site_R_N" e.g. A, B, C etc. 1. For MUL applications with multiple areas a single shapefile with an attributed polygon for each area to be submitted, named sequentially; A, B, C, D etc.	The Shapefile attribute fields have been compiled as directed. The File reference number is that provided by MARA (LIC230025) and the Site reference number coincides with the designations included in the Maps of the application. QGIS Attribute Table:

	File_R_N	Site_R_N

Dear Ms Monaghan

On behalf of the Port of Waterford, please find attached requested amended licence maps and GIS files.

The areas presented represent the footprint of the maritime area that the development will occupy below the High Water Mark as defined by the Chief Boundary Surveyor and are provided in GIS form as polygons, with the required attribute fields assigned.

Kind regards,  
Colm
