MARA Reference: MUL260003

Dear Paula,

We, Oceyon, hereby submit a response to the Request for Further Information (RFI) issued by MARA in relation to the MUL. The MUL for the proposed project was submitted to MARA on the 9th of January 2026, and the RFI was received on the 5th of August 2026. This response has been prepared by Rowan Engineering Consultants Ltd., with the input of Oceyon.

We welcome the opportunity to respond to the RFI and note that 3 primary items raised by MARA. It is Oceyon's view that these requests were minor and clarificatory, however, for completeness responses have been provided on an itemised basis to each query raised. It is also the applicant's view that none of the responses provided contain significant additional data. The responses are clarificatory and explain information already provided in the application documents.

We trust the RFI Response Report enclosed addresses MARA's request for further information in full. Please do not hesitate to contact Kim Hind (kim.hind@oceyon.com / [REDACTED]) if any further clarification would assist MARA's assessment of the application.

Yours sincerely,

[REDACTED]

Kim Hind
