To whom it may concern,

I am sending you this email in relation to the plan development for a Water treatment project in Liscannor Bay.
As a locally business person/father/strength and conditioning coach and a user of our wonderful coastline, I think it is imperative that you do not go ahead with the plan Water treatment facility and pump raw sewage out into our bay.
This bay is full of wildlife, swimmers and surfers that use the area and amenities on a year-round basis and going ahead with this plan would have a massive impact to both the marine life and ocean swimmers/surfers users as well as to the annual tourism influx to the area.
I really do feel that this planned development would have a massively negative effect to our area.
I would ask you to find an alternative plan to treat the sewerage from Ennistymon/Lahinch area.

Kind regards
