Dear Sir/Madam,

I wish to express my objection to the proposed Maritime Usage Licence application MUL260006 Uisce Éireann, marine and intertidal site investigation surveys, Liscannor Bay, Co. Clare.

I am a Lahinch native and a regular swimmer at Cregg and Lahinch beaches. I am also a wildlife enthusiast and I often admire the resident seal population at Cregg beach. I dread to think of what effect this survey could have on the wildlife and seal population.

I am also a regular walker at Cregg and the surrounding Calluragh area. It is an area of historical interest and outstanding natural beauty and tranquillity.

I hate to think of this beautiful area being excavated for the proposed survey by Uisce Eireann. It is unbearable to think that the public would be denied access to this beautiful area.

Liscannor Bay deserves a proper wastewater treatment plant. It is very sad to see untreated sewage flowing into the bay. This is not acceptable in this day and age and the impact to tourism is detrimental.

It is very disappointing to see Lahinch beach without a blue flag status in 2026. All efforts should be made to have this reinstated to protect the wellbeing of the people in the locality and to preserve the tourism that the locality is so dependent on.

I am appealing to you to now to choose the right plant and the right process in the appropriate location.

Sincerely,

[redacted]
