Dear Sir or Madam,

I object to the grant of licence MUL260006 and ask MARA to refuse it. I do not support this licence being granted under any circumstances. This is my individual submission based on my knowledge of the area where I live and my regular observations of the rocks and shoreline at Cregg.

I know these rocks from seeing them regularly. The 11 (eleven) attached photographs show carved or inscribed markings on exposed rock surfaces along with pictures of seals taken in the areaon 16th October'26.

One photograph appears to show the wording "Board of Fisheries" and a date may read "1833." I can authenticate the inscription,the date and the significance and it may have archaeological or cultural heritage value.

It should be recorded and assessed by a suitably qualified heritage professional before any works take place nearby.

I ask that this inscribed rock and the other marked rocks are preserved and protected. No survey activity, handling, marking, cleaning or other physical disturbance should take place on or close to them until their significance has been assessed and appropriate protection measures are in place.

I am concerned that the proposed survey works, including trial pits, access and the movement of machinery or equipment, could disturb or damage the rocks and the surrounding shore. This coastline is also habitat for seals right beside the rocks . The possible effects of the survey works on the seals and their habitat must be properly assessed and avoided.

Please ensure that the exact locations shown in the photographs and all areas that could be affected by the proposed works are examined and documented by appropriately qualified archaeological and ecological specialists. The application and any determination should explain how these rocks, the wider shoreline and seal habitat have been considered. The photographs should be kept with the application record.

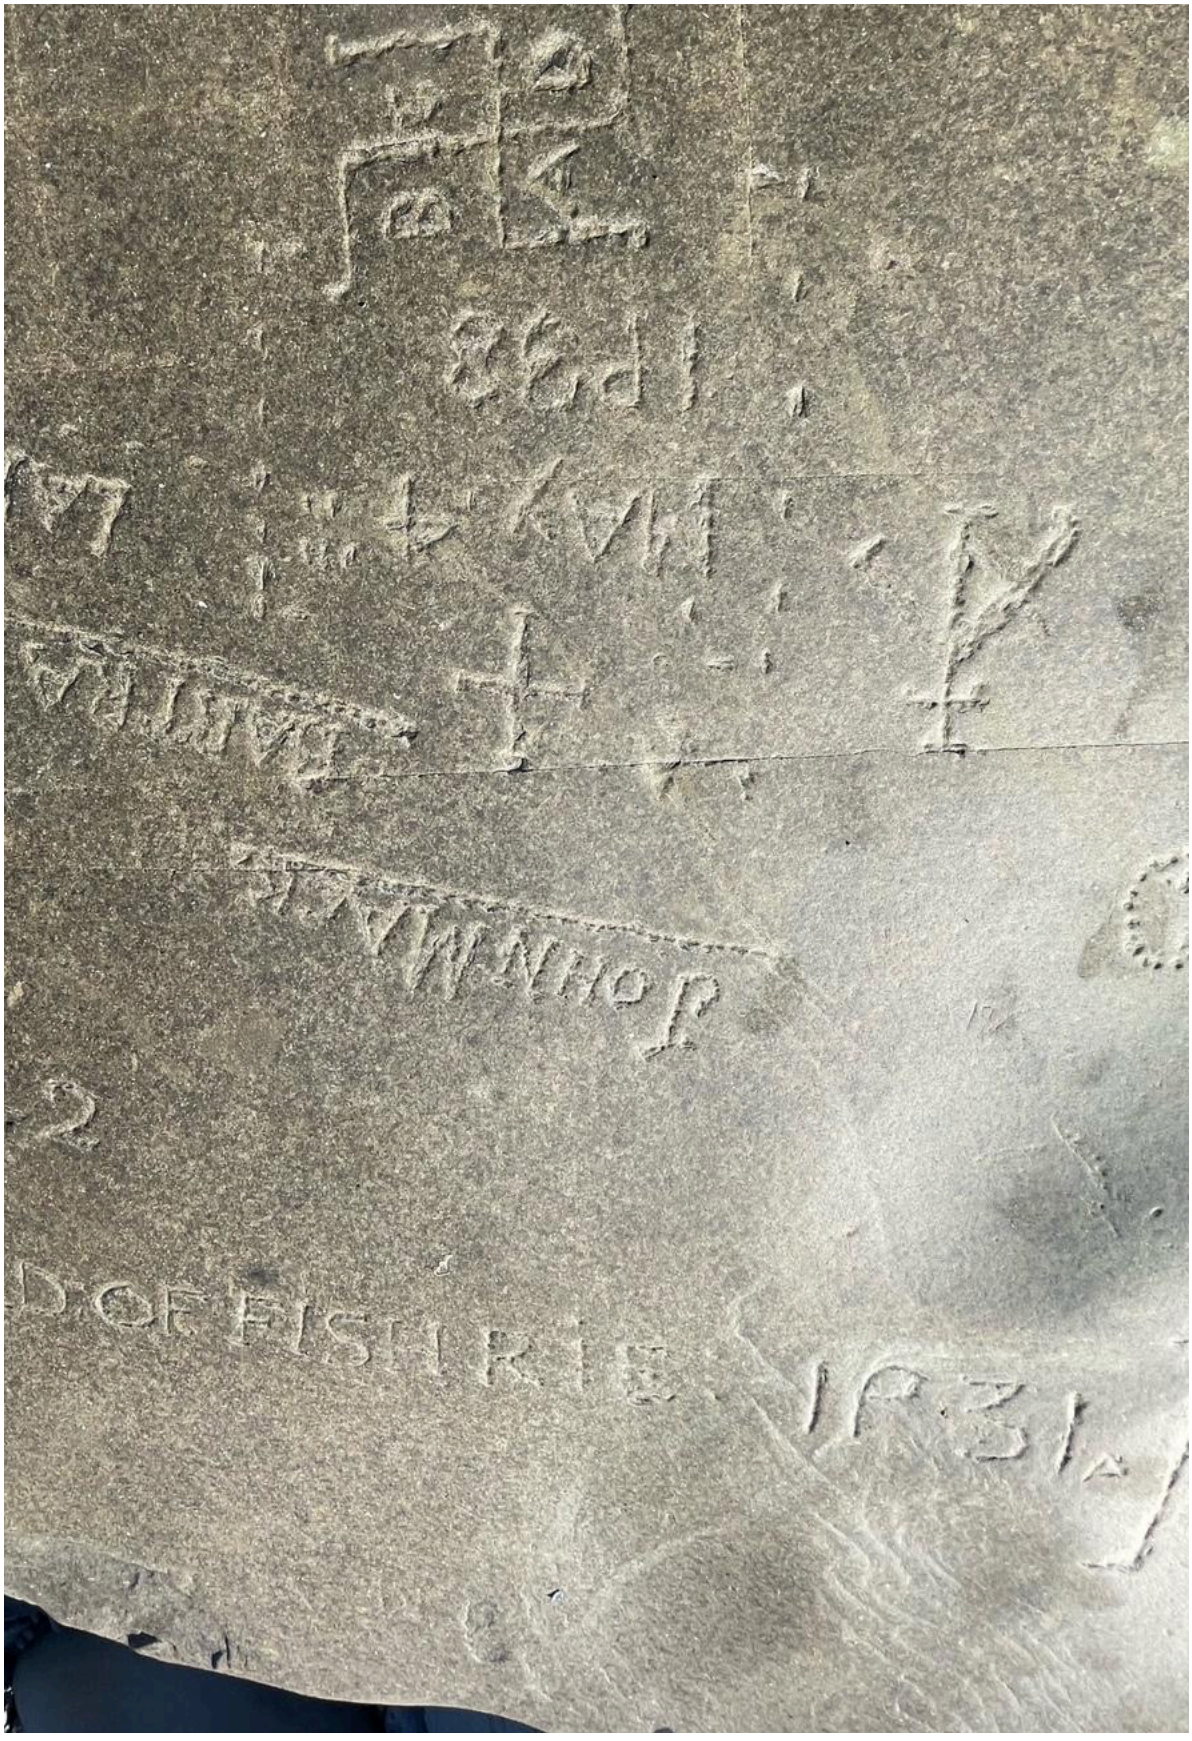

I live in [redacted] and know this area as a local resident. I see these beautiful rocks regularly. I do not want them, or the habitats around them, to be disrupted by the proposed works.

I ask MARA to refuse licence MUL260006.

Yours faithfully,

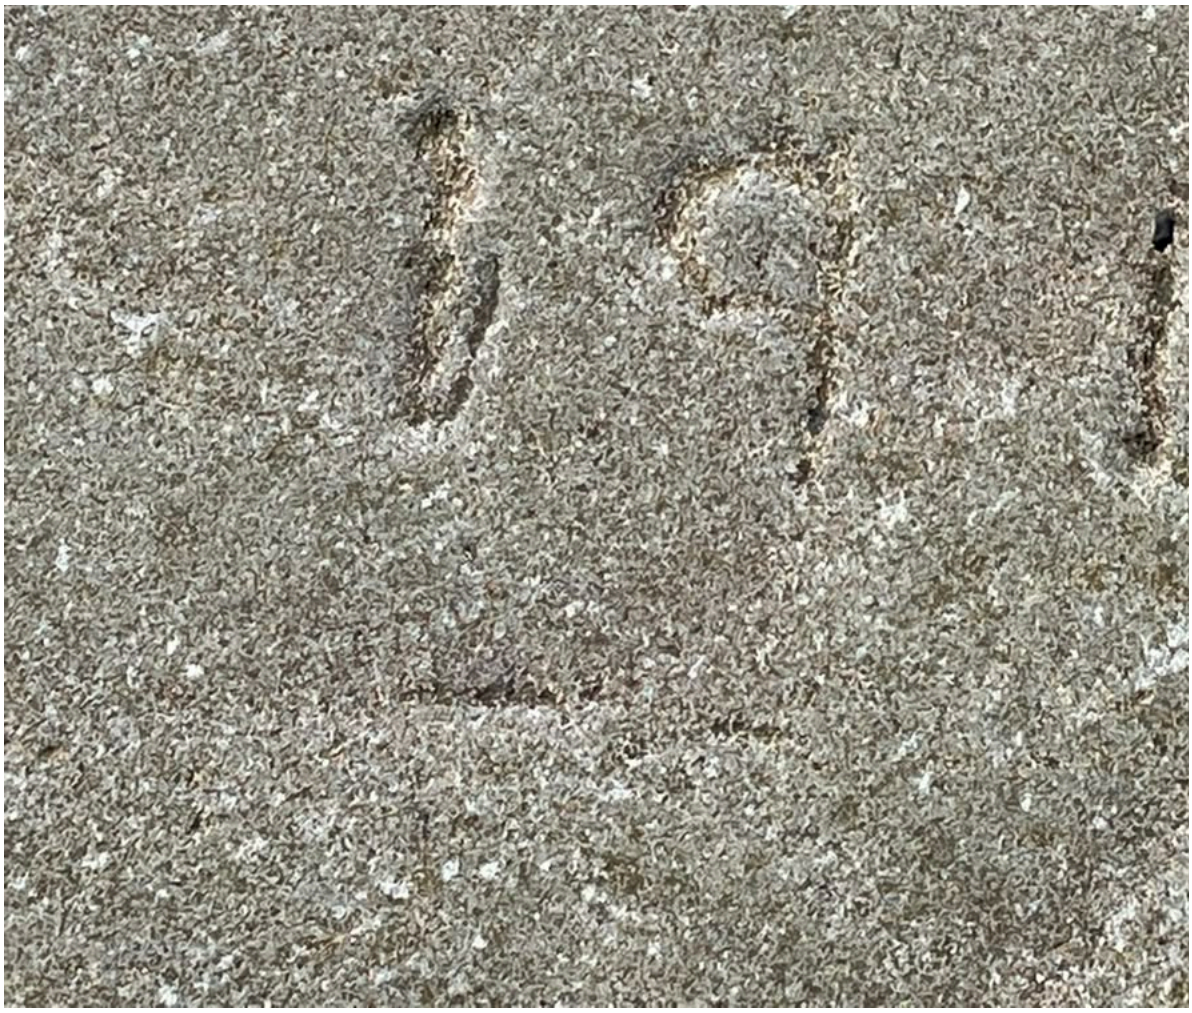

[redacted]

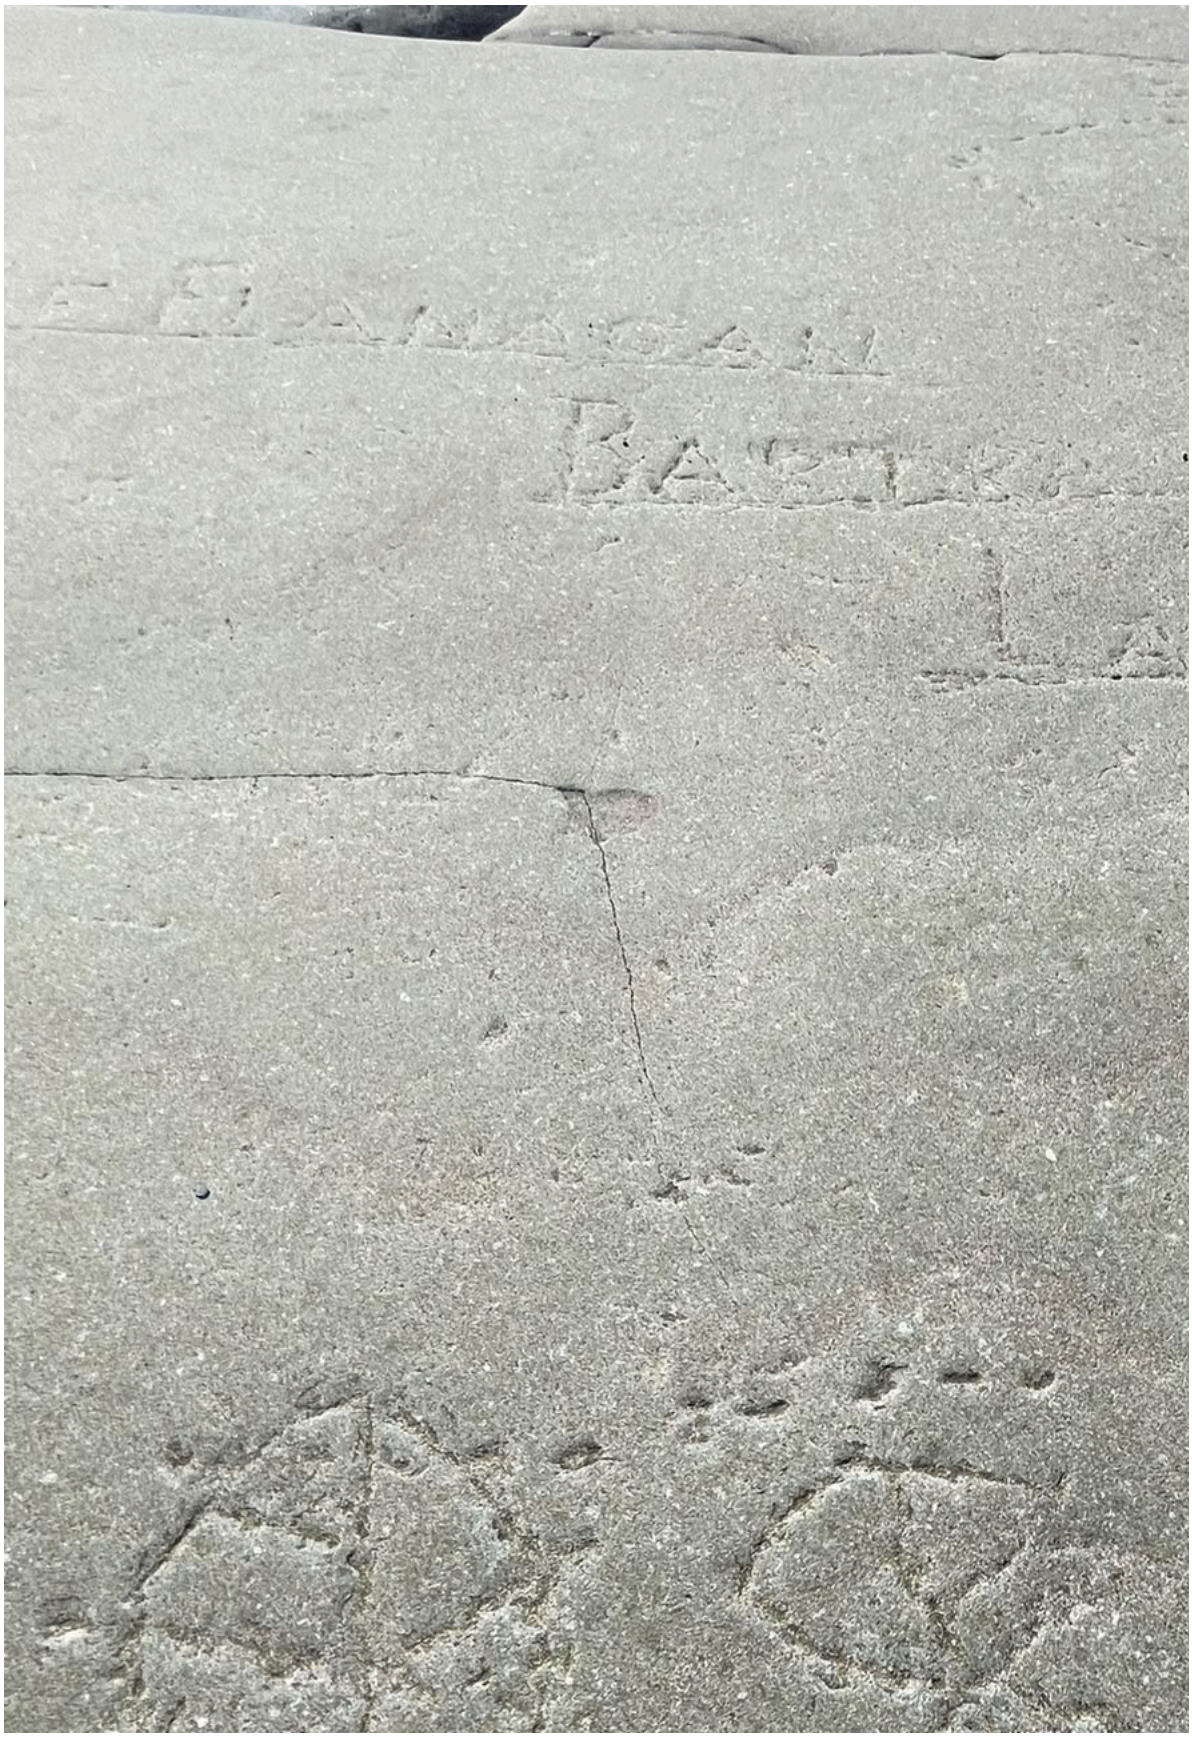

Enclosures: Nine photographs of rock markings at Cregg Beach plus Two of seals .
