As a resident of Ennistymon all my life I strongly object to the proposal by Uisce Eireann to divert all sewerage from Ennistymon and Lahinch to the Callura/Barrtra/Creg area.
This is a grossly expensive option and would have a devastating effect on wildlife and tourism in the area. The invasive testing proposed by Maru on behalf of Uisce Eireann could permanently destroy natural habitats and protected species of seal and sea birds in those areas.
I sincerely hope that this testing will be abandoned and a more suitable option be explored eg updating the existing system in place.

Yours faithfully
