To Whom It May Concern,

As a year-round Lahinch sea swimmer I am shocked at the proposal to conduct surveys in Liscannor Bay with the view to putting in a sewage system there. I also swim in Cregg and Clahane and I am seriously concerned about what this will all do to the water quality in the bay. There is no possible way it won't affect it negatively. Lahinch is a thriving tourist area and this will have a serious impact on tourism. Lahinch has already lost its blue flag and everyone agrees that something needs to be done, and the water quality needs to improve - but this can only make it worse. It needs to be done properly so that not only the swimmers, surfers and families etc won't be impacted, but the animal and fish life too, and piping sewage into these bathing areas with no guarantees of water quality and effect on people's health is just wrong.

So I am asking, on behalf of all of us who live in (and love) the Lahinch area - please dont grant this survey licence.

Kind Regards,
