Maritime Area Regulatory Authority

Maritime Usage Licence (MUL)

General Application (Form MUL1)

Important information:

Applicants are strongly advised to read the "[Guidance Note for Applicants applying for a Maritime Usage Licence](#)" before completing this application.

The application form and supporting documentation, including confirmation of payment of fee, must be submitted to licence@mara.gov.ie.

Complete this form electronically using the free text and tick boxes provided, free text boxes will expand as required. Responses should, in so far as is possible, clearly and concisely address the information requested. Where appropriate, supporting documentation may be submitted for assessment, providing that any information relevant to the application is clearly referenced in the application form.

Before completing this form, the declaration and consent at the end of the application form should be read.

Application Fee:

An application fee of EUR €2,000 applies for each Maritime Usage Licence (MUL) application.

This requirement is detailed in legislation:

Section 117(1) of the Maritime Area Planning Act 2021 and Maritime Area Usage (Licence Fees) Regulations 2023, SI No 402/2003.

The application fee must be paid by Electronic Funds Transfer (EFT) to the Maritime Area Regulatory Authority (MARA). MARA Bank Details are provided upon request by email to licence@mara.gov.ie

Proof of application fee payment /confirmation of funds transfer must be provided with the application documentation.

Should the Maritime Usage Licensing application screen out for Appropriate Assessment, a refund of EUR €1,000 applies.

Privacy Policy

MARA may require applicants to provide certain personal data in order to carry out its legislative and administrative functions. MARA will treat all personal data that an applicant provides in accordance with MARA's obligations under data protection legislation, including the Data Protection Act 2018 and the EU General Data Protection Regulation (GDPR). A Privacy Statement explaining how MARA, as the Data Controller, will process the personal data the applicant provides, how that information will be used and what rights the applicant may exercise in relation to its personal data, is available in this link: [Privacy Policy - MARA - The Maritime Regulator](#).

Freedom of Information/Access to Information on the Environment

MARA is a public body for the purposes of the Freedom of Information Act 2014, as amended (the "FOI Act") and is also subject to the European Communities (Access to Information on the Environment) Regulations 2007-2018 (the "AIE Regulations") and MARA may be required to disclose information and records provided by the applicant in response to a request made under the FOI Act and/or the AIE Regulations, subject to applicable exemptions. Where the applicant considers that any information supplied to MARA is commercially sensitive, confidential or otherwise exempt from disclosure under the FOI Act or the AIE Regulations, the applicant must clearly identify such information at the time. Notwithstanding this, the final decision on disclosure rests with MARA, in accordance with the applicable legislation. The applicant must, upon reasonable request and within a reasonable timeframe, provide all necessary assistance and cooperation to MARA in connection with any request for information made under the FOI Act and/or AIE Regulations.

Confidential/Commercially Sensitive Information

Applicants are asked to consider if any of the information supplied by them in their application to MARA is commercially sensitive and/or confidential. The applicant should clearly identify and separate the specific sections of their application containing such information. The applicant should specify the reasons for its confidentiality/sensitivity with regard to the FOI Act and/or AIE Regulations.

Form MUL1 – Application for a Maritime Usage Licence (MUL) for an activity listed in Schedule 7 of the MAP Act

Part 1 Activity in Schedule 7 and relevant section of the MAP Act

1.1 Part 1 Activity in Schedule 7, for which this MUL application is made.

Tick Maritime Usage applicable to the purpose of the MUL. The Applicant should refer to the MUL Guidance Note for Applicants before completing this section.	
1. Dredging (including dredging involving the use of a device to remove any material, whether or not suspended in water, from one part of the seabed to another part of the seabed) other than— (a) dredging carried out to create a new harbour, berth or waterway, or to deepen existing facilities in order to allow access for larger ships, or (b) dredging ancillary to development authorised under the Act of 2000, whether or not it involves the removal of any material from the sea or seabed.	<input type="checkbox"/>
2. Marine environmental surveys for the purposes of scientific discovery or research.	<input type="checkbox"/>
3. Marine environmental surveys for the purposes of site investigation or in support of an application under Part XXI of the Act of 2000.	<input checked="" type="checkbox"/>
4. The installation or placement of navigational markers or aids to navigation, or both, not undertaken or authorised by the Commissioners of Irish Lights.	<input type="checkbox"/>
5. The installation of non-permanent platforms, pontoons or slipways.	<input type="checkbox"/>
6. The deposit of any substance or object, either in the sea or on or under the seabed, from— (a) a vehicle, vessel (including a craft capable of travelling on, in or under water, whether or not self-propelled), boat, aircraft or marine structure (other than a pipeline), (b) a container floating in the sea, or (c) a structure on land constructed or adapted wholly or mainly for the purpose of depositing solids in the sea.	<input type="checkbox"/>
7. The use of a vehicle, vessel (including a craft capable of travelling on, in or under water, whether or not self-propelled), boat, aircraft, marine structure (other than a pipeline) or floating container to remove any substance or object from the seabed.	<input type="checkbox"/>
8. The use of explosives not related to development authorised under the Act of 2000 and not requiring authorisation under any other enactment.	<input type="checkbox"/>
9. The maintenance of any cable, pipeline, oil, gas or carbon storage facility structure that does not require an authorisation (whether the authorisation takes the form of the grant of a licence, consent, approval or any other type of authorisation) under any other enactment in order to be undertaken.	<input type="checkbox"/>
10. The harvesting, disturbance or removal of seaweed, whether growing or rooted on the seabed, or deposited in or washed up thereon by the action of any one or more than one of the following: (a) tides; (b) winds; (c) waves.	<input type="checkbox"/>
11. The deposit, construction or removal of any mooring not requiring authorisation under any other enactment.	<input type="checkbox"/>
12. (a) The removal of beach material from, or the disturbance of beach material in, the maritime area otherwise than in the course of the ordinary or reasonable recreational enjoyment of the maritime area. 12 (b) In this paragraph, "beach material" means sand, clay, gravel, shingle, stones, rocks, mineral substances, seashells, coral and maerl and any flora, in or on the surface of the seabed or suspended in the water of the maritime area, and includes outcrops of rock or any other mineral substance above the surface of the seabed.	<input type="checkbox"/>
13. The laying or installation of telecommunications cables or ducting by or between coastal States where such cables or ducting pass through the exclusive economic zone (as construed in accordance with the Act of 2021) or the continental shelf but do not land in the State.	<input type="checkbox"/>
14. A maritime usage specified, for the purposes of this paragraph, in regulations made under section 113(2)."	<input type="checkbox"/>

Select activity type from the list below:

Dredging/Deposits	<input type="checkbox"/>
Energy Infrastructure	<input checked="" type="checkbox"/>
ORE Development	<input type="checkbox"/>
Ports	<input type="checkbox"/>
Research	<input type="checkbox"/>
Seaweed	<input type="checkbox"/>
State Infrastructure (Water/Sewage)	<input type="checkbox"/>
State Infrastructure (Other)	<input type="checkbox"/>
Telecoms	<input type="checkbox"/>
Tourism & Recreation	<input type="checkbox"/>

1.2 Select the relevant section(s) of the MAP Act under which this MUL application is made. If more than one section applies, then select all applicable sections.

Section 117 application for a new Schedule 7 usage	<input checked="" type="checkbox"/>
Section 129 application to amend an existing foreshore authorisation or continue to occupy that part of the maritime area after the expiration of the authorisation	<input type="checkbox"/>
Section 130 application for an existing unauthorised maritime usage	<input type="checkbox"/>

1.3 Provide below details when MUL application is made under Section 129 of the MAP Act.

A. Confirm that you are transitioning from an existing foreshore authorisation to a MUL to continue the previously consented maritime usage, or to amend an existing authorisation.

Yes No

B. If yes, provide the following details.

i. Foreshore authorisation reference number.

Not Applicable

ii. Date of Issue.

Not Applicable

iii. Expiration date.

Not Applicable

iv. Description of Authorised Usage.

Not Applicable ██████████

v. Reason for transition from foreshore authorisation to MUL.

Not Applicable

vi. Confirm that you have attached a copy of the existing foreshore authorisation including foreshore consent map in this MUL application as Attachment 1.3.

Yes No

1.4 Provide below details when MUL application is made under Section 130 of the MAP Act.

A. Confirm that you are applying for a MUL for an existing unauthorised maritime usage.

Yes No

B. If yes, provide the following details.

i. Description of existing unauthorised maritime usage.

Not Applicable

ii. Location of unauthorised maritime usage.

Not Applicable

iii. Date of commencement of unauthorised maritime usage.

Not Applicable

Part 2 Applicant Details

2.1 Applicant Details

The name and address should be of the legal or natural person that is to be the MUL Holder. This information would be recorded on the MUL.	
Name of Applicant	Department of Climate, Energy and the Environment
Company/Organisation (if Applicable)	Department of Climate, Energy and the Environment
Applicant Address: Where a legal person would be the Holder of the MUL, these details must be as currently listed in the Companies Registration Office. Where a non-profit entity, which is a registered charity, would be the Holder of the MUL, these details must be as currently listed in the Register of Charitable Organisations.	
Address line 1	Tom Johnson House
Address line 2	Haddington Rd
Address line 3	
City/Town	Dublin
Eircode	D04 K7X4
Applicant Email Address	Jo.coloe@dcee.gov.ie
If the Applicant is a legal person, Company Registration Office Number. A copy of the Certificate of Incorporation (certified copy provided by CRO) and a list of Directors must be provided as Attachment 2.1.	Not Applicable
If the Applicant is a non-profit entity, which is a registered charity, the Registered Charity Number	Not Applicable

Attachment 2.1 included (if required).

Yes No Not Applicable

2.2 Authorised Contact Person for MUL Application.

The Authorised Contact Person for the MUL Application will be the person that MARA will contact in relation to any aspect of the MUL application. The Authorised Contact Person can be a person within the Applicant Organisation or a person (agent) nominated by the Applicant

Authorised Contact Name	Jo Coloe
Authorised Contact Position	Assistant Principal Officer
Email	Jo.coloe@dcee.gov.ie
Telephone	[REDACTED]

2.3 If MARA provided a statutory declaration under Section 115 of the MAP Act as to whether or not a MUL was required for the proposed usage, provide the reference number associated with that declaration.

Not Applicable

2.4 Existing Foreshore Authorisation

A. Provide the reference number and title of any existing Foreshore Authorisations you may hold, or have a current application for, within, or otherwise in the vicinity of the proposed Maritime Usage, which you do not wish to transition (refer to 1.3 for Foreshore Authorisations you wish to transition).

Not Applicable

B. Do you intend to surrender any existing foreshore consent(s) (Lease/Licence) for any maritime usage other than that granted by the foreshore authorisation?

Yes No

C. If yes, provide description of the existing foreshore consent(s) authorised usage. If necessary, provide additional information as Attachment 2.4.

Not Applicable

D. Attachment 2.4 included.

Yes No Not Applicable

2.5 Other authorisations or consents

- A. Provide the reference number, a brief description and the status (e.g. application made or authorisation/consent granted) of any other authorisations or consents in the footprint, or otherwise in the vicinity of the proposed Maritime Usage area, held by the applicant.

If necessary, provide additional information as Attachment 2.5.

DCEE were granted a Marine Usage Licence (LIC240006) on 04/07/2024 for the purpose of undertaking a geophysical survey in the South Coast DMAP to inform offshore renewable energy development. This licence expired on 04/07/2025.

- B. Attachment 2.5 included.

Yes No Not Applicable

Part 3 Details of Maritime Usage

3.1 Maritime Usage

A. Provide a brief description of proposed Maritime Usage.

Additional information can be provided as Attachment 3.1.

Please see Table inserted for the survey scope. Further information is provided in Attachment 3.1

Survey Type	Survey Scope
Geophysical	Multibeam echo sounder (MBES) <ul style="list-style-type: none"> • Sub botom profiler • Side scan sonar • Magnetometer • Ultra-short baseline (USBL) acoustic positioning system • Sparker system • Mini air gun • Deployment of a Day or Hamon grab (ground truthing)
Geotechnical	<ul style="list-style-type: none"> • Cone Penetration Testing (CPT/TCPT) • Vibrocore sampling Boreholes (shallow and deep)
Biological / explorative	Passive acoustic monitoring <ul style="list-style-type: none"> • Autonomous Multichannel Acoustic Recorder (AMAR) and/or F-PODs • Hydrophone • Towed hydrophone • Moored deployments (AMARs, F-PODS) Digital Aerial Survey <ul style="list-style-type: none"> • Aerial camera surveys Benthic <ul style="list-style-type: none"> • Day grab and/or Hamon grab • Dropdown video/stills • ROV video/stills • Water sampling • Sediment chemistry sampling • Water sampling
Metocean	<ul style="list-style-type: none"> • Up to 2 x Metocean Buoys with associated passive monitoring equipment, which may include floating Lidar, wind, current and water quality sensors and solar panels • Tidal measurements for water level variations • Water Depth – CTD

B. Attachment 3.1 included.

Yes No Not Applicable

3.2 Describe the purpose of the proposed Maritime Usage, with reference to the classes of usage in Schedule 7 of the MAP Act.

██████████

DCEE are carrying out marine environmental surveys for the purposes of site investigation. In October 2024, the Minister for the Environment, Climate and Communications made the South-Coast Designated Maritime Area Plan (SC-DMAP), following the approval of both Houses of the Oireachtas. The SC DMAP is Ireland's first marine spatial plan specifically for offshore renewable energy (ORE). This multi-disciplinary marine survey programme is planned to inform the final South Coast DMAP (SC-DMAP). Works will be conducted primarily within three maritime areas off Waterford and Wexford, with indicative transit lines from the Tonn Nua cable corridor (Cork side) to Li Ban, and a second indicative corridor beyond Li Ban within the SC-DMAP/MUL boundary. The overall objective of the surveys is to characterise seabed and sub-seabed conditions and to collect baseline metocean, benthic, and acoustic data to support the feasibility, design, and environmental assessment of future offshore wind and grid infrastructure. Coverage focuses on the three SC-DMAP maritime areas (Li Ban B, Manannán C, and Danu D) off Waterford/Wexford, potential transit lines from Cork Harbour, and corridors between sites.

3.3 Duration

A. Indicate the overall MUL duration requested. Indicate the duration of any individual activities included in the overall activity. Give reasons for the proposed durations. Indicate any seasonal, vessel or other schedule constraints.

Additional information can be provided as Attachment 3.3.

It is proposed to undertake the surveys on a phased approach, commencing in Q3 2026 for metocean, biological and geophysical surveys (subject to grant of this MUL) with other surveys proceeding over a 5-year period. The exact dates for the surveys are to be determined pending grant of this MUL, weather conditions and the availability of resources for surveying.

B. Attachment 3.3 included.

Yes No Not Applicable

3.4 Describe the area of proposed Maritime Usage

- A. State the total size of the Maritime Area (in m², ha or km², as appropriate), which is the subject of the application.

The overall area amounts to 5653.88km²

- B. Attach map, titled 'Proposed MUL Map' and GIS Shapefiles outlining the proposed Maritime Area(s). If the application relates to more than one area, each area should be labelled on the accompanying maps/drawings and its area provided. The map(s)/drawing(s) should be included as Attachment 3.4. List the attached map/drawing number(s) and map/drawing name(s) in the space below.

Map(s)/GIS Shapefiles must comply with 'MARA Technical Mapping Guidance Notes for MAC/MUL Applications in the Maritime Area under the Maritime Area Planning Act 2021 (MAPA)'.

Maps attached. Proposed MUL Map

- C. Attachment 3.4 included.

Yes No

3.5 Describe the location of proposed Maritime Usage

- A. Provide the distance in kilometres and direction of the main body of the proposed Maritime Usage area from the shore at its closest point.

The survey area is on the Southeast Coast between Cork & Waterford, between 10 – 70m water depth. The proposed license area is 0.060km from the HWM at the closest point.

- B. Attach map(s)/drawing(s) showing the location of the proposed Maritime Usage. The attached map/drawing number(s) and map/drawing name(s) should also be listed in the space below. The map(s)/drawing(s) should be included as Attachment 3.5.

Map(s)/GIS Shapefiles must comply with 'MARA Technical Mapping Guidance Notes for MAC/MUL Applications in the Maritime Area under the Maritime Area Planning Act 2021 (MAPA)'.

The location of the proposed maritime usage is as shown on the Proposed MUL map as provided in Attachment 3.4

- C. Attachment 3.5 included.

Yes No

3.6 Ownership

- A. Is any part of the Maritime Area within the proposed site in private ownership?

Yes No

- B. If yes, indicate on a drawing/map the area concerned in relation to the proposed maritime usage area and provide a letter confirming that the Applicant has obtained all necessary consents from the relevant owner(s).

██████████

- C. Is the Applicant aware of any actual or claimed legal rights or interests held by third parties in the proposed site that may be affected by the proposed Maritime Activity?

Yes No

- D. If yes, indicate on a drawing/map the area concerned in relation to the proposed maritime usage area and provide a letter confirming that the Applicant has obtained all necessary consents from the relevant owner(s) of such legal rights or interests.

- E. The letter(s) and drawing(s)/map(s) referred to in B and D above should be included as Attachment 3.6. List the attached letters, map/drawing number(s) and map/drawing name(s) in the space below.

Not applicable

- F. Attachment 3.6 included.

Yes No Not Applicable

3.7 Planning permission and/or other authorisation(s)

- A. Does the proposed Usage require planning permission and/or other authorisation(s), or is it ancillary to or part of a proposed development which requires planning permission and/or other authorisation(s)?

Yes No

- B. If yes, what is the status of the planning and/or other authorisation(s)? If applicable, provide a brief description of the proposed development, to which the proposed Maritime Usage is ancillary.

Provide the file reference number(s) and link(s) to the websites where information on the planning and/or other authorisation application(s) and/or planning permission/ authorisation(s) can be obtained.

Not applicable

Part 4 Marine Planning and Environmental Considerations

National Marine Planning Framework (NMPF)

4.1 NMPF Objectives

A. Describe how the proposed Maritime Usage is consistent with the objectives of the NMPF. Provide sufficient information addressing the consistency of the proposed Maritime Usage with the objectives of the NMPF. This information should be provided as Attachment 4.1.

B. Attachment 4.1 included.

Yes No

4.2 Designated Marine Area Plan

A. Is the proposed Maritime Usage located in an area for which a Designated Marine Area Plan has been published?

Yes No

B. If yes, indicate if the proposed Usage is consistent with the Designated Marine Area Plan. Additional information can be provided as Attachment 4.2.

Ireland's first statutory Designated Maritime Area Plan (DMAP) - the South Coast (SC) - DMAP was formally made on 24 October 2024 under the Maritime Area Planning Act 2021. The SC-DMAP designates four maritime areas for fixed offshore wind development.

The proposed SI works are fully consistent with the SC - DMAP. They align with all objectives:

Key Objectives of the SC-DMAP:

- **Plan-Led Development:** The survey works occur only within the South Coast DMAP.
- **Renewable Energy Targets:** Supports the Governments Policy to deliver offshore wind capacity within the SC - DMAP.
- **Evidence Based Planning:** Data from these surveys will be used to derisk future auctions and support monitoring under the SC - DMAP.
- **Environmental Protection:** A full Natura Impact Statement is provided. It objectively concludes that provided the mitigation measures described in this document are fully implemented, no adverse effect on the integrity of any European site will occur.
- **Economic Growth:** The survey works will contribute to local economies (through supporting local supply chains).
- **Coexistence of Users:** The survey works are temporary and designed to minimise interference with other maritime activities. Survey operations will be managed to reduce disruption, and mitigation such as use of an FLO and engagement with local stakeholders through our CLO will ensure activities are communicated clearly and carried out safely.

C. Attachment 4.2 included.

Yes No Not Applicable

Habitats and Birds Directives ██████████

4.3 Report for Appropriate Assessment Screening

A. Is the proposed Maritime Usage directly connected with or necessary to the management of a European site?

Yes No

B. If not, provide an Appropriate Assessment screening report to provide sufficient information for MARA to undertake screening to determine if an Appropriate Assessment is required of the implications of the proposed Maritime Usage alone, or in combination with other plans or projects, for any relevant European site, in view of the site's conservation objectives.

If the Applicant has already determined that it is likely that an Appropriate Assessment will be required and have prepared an NIS, it may be submitted.

The Appropriate Assessment screening report and/or NIS must be prepared by a suitably qualified person, and a summary of the person's qualifications and experience must be included in the report/NIS.

The Appropriate Assessment screening report and/or NIS should be provided as Attachment 4.3.

Attachment 4.3 included.

Yes No

4.4 Risk Assessment for Annex IV Species

A. Is there potential for Annex IV species to be impacted by the proposed Maritime Usage?

Yes No

B. If yes, the Applicant should provide an assessment of the risk posed to such species by the proposed Maritime Usage, in accordance with national guidance. The Risk Assessment for Annex IV Species report must be prepared by a suitably qualified person, and a summary of the person's qualifications and experience must be included in the report.

The Risk Assessment for Annex IV Species report should be provided as Attachment 4.4.

Attachment 4.4 included.

Yes No

- C. Are you required to apply for a derogation licence under Regulation 54 of the European Communities (Birds and Natural Habitats) Regulations 2011, as amended?

Yes No

If yes, provide NPWS application reference number or derogation number:

[REDACTED]

Water Framework Directive

- 4.5 Provide sufficient information addressing the consistency of the proposed Maritime Usage with the objectives of the Water Framework Directive. This information should be provided as Attachment 4.5.

Attachment 4.5 included.

Yes No

Marine Strategy Framework Directive

- 4.6 Provide sufficient information addressing the consistency of the proposed Maritime Usage with the objectives of the Marine Strategy Framework Directive and Ireland's Marine Strategy under the Directive. This information should be provided as Attachment 4.6.

Attachment 4.6 included.

Yes No

Environmental Impact Assessment (EIA) Directive

4.7 EIA Screening

- A. With reference to Parts 1 and 2 of Schedule 5 of the Planning and Development Regulations, S.I. 600 of 2001, as amended confirm that the activity:

- i. Is not of a class listed, where no quantity, area or other limit is specified in that Part, or
- ii. Does not either equal or exceed, any relevant quantity, area or other limit specified for a class listed in that Part.

Yes – is not of a class/does not equal or exceed a threshold	<input checked="" type="checkbox"/>
No – is of a class/equals or exceeds a threshold	<input type="checkbox"/>

- B. If yes, confirm if the activity is of a class listed in Part 2 of Schedule 5 of the Planning and Development Regulations, S.I. 600 of 2001, as amended, but does not equal or exceed the relevant quantity.

Yes No

- C. If yes to '4.7 B', provide the information for EIA screening specified in Schedule 7A of the Planning and Development Regulations, S.I. 600 of 2001, as amended. The information specified in Schedule 7A should be provided as Attachment 4.7.

Attachment 4.7 included.

Yes No Not Applicable

UN Convention on the Law of the Sea and the Maritime Jurisdiction Act

- 4.8 Provide sufficient information addressing the consistency of the proposed Maritime Usage with the Irish State's obligations under the UN Convention on the Law of the Sea and the Maritime Jurisdiction Act.

Additional information can be provided as Attachment 4.8.

The survey works proposed will be consistent with UN Convention on the Law of the Sea and the Maritime Jurisdiction Act as they will be conducted in accordance with the applicable consents from MARA. The SI works will be undertaken in compliance with international navigation rules, will not interfere with the rights and freedoms of other States, and will not compromise Ireland's duty to protect and preserve the marine environment.

Attachment 4.8 included.

Yes No Not Applicable

Climate Action and Low Carbon Act of 2015, as amended

- 4.9 Provide sufficient information addressing the consistency of the proposed Maritime Usage with achieving the National Climate Objective, as defined in the Climate Action and Low Carbon Act of 2015, as amended.

Additional information can be provided as Attachment 4.9.

The Climate Action and Low Carbon Development (Amendment) Act 2021 sets out legally binding targets that Ireland must reach to reduce its greenhouse gas emissions and achieve climate neutrality by 2050. The aim of the annual climate action plan is to set out the measures that will help Ireland reach its overall commitment.

CAP25 builds on the actions taken over previous years. It sets out the direction of travel for the year ahead, working to ensure that Ireland is prepared to take on the challenges of the second carbon budget period 2026–2030. The offshore renewable energy targets from CAP25 sets out targets of at least 5GW by 2030.

The survey works will enable offshore wind deployment at scale, thereby supporting Ireland’s legally binding climate commitments while being delivered in a manner that protects the marine environment. The DMAP is the State’s plan-led framework that identifies, assesses, and prioritises areas for offshore renewable energy development, ensuring alignment with environmental protection, marine spatial planning, and national energy policy. These SI works will support the development of an offshore renewable energy development within the SC- DMAP, and these works directly support a structured and strategic approach to ORE development, reducing spatial conflicts and ensuring compliance with national and EU obligations.

Attachment 4.9 included.

Yes No Not Applicable

4th National Biodiversity Action Plan 2023 – 2030

4.10 Provide sufficient information addressing the consistency of the proposed Maritime Usage with the 4th National Biodiversity Action Plan 2023 – 2030.

Additional information can be provided as Attachment 4.10.

The proposed survey works take into account appropriate mitigation measures to ensure that any risk to biodiversity are avoided or reduced to negligible measures.

Attachment 4.10 included.

Yes No Not Applicable

National or European Strategic or Policy Objectives

4.11 Provide any additional relevant information with regard to the overall purpose of the proposed maritime usage, with reference to, e.g. National or European strategic or policy objectives and national targets, and strategic research objectives.

Additional information can be included as Attachment 4.11.

Please find below main relevant information with regard to the overall purpose of the proposed maritime usage, with reference to, National and European strategic or policy objectives and national targets, and strategic research objectives.

- **Climate Action Plan 2025:** CAP25 is building on commitments from previous years to enable the share of electricity generated from renewable sources up to 80% which includes a suite of actions to realise Ireland's offshore renewable energy potential and commits to the achievement of at least 5GW of offshore wind by 2030.
- **Government approved the Policy Statement on the Framework for Phase Two Offshore Wind:** Ireland has moved to a plan-led system and away from the existing developer-led system. To support this auction process and to de-risk the site selection process for ORE development, it is essential that the State undertake surveying of the proposed locations.
- **DMAP establishment process:** All surveys will take place in the South Coast DMAP.
- **Under National Strategic Outcome 8 (Transition to a Climate-Neutral and Climate-Resilient Society),** of the **National Development Plan 2021-2030**, the Government lays out a clear priority for investment in renewable energy and research to ensure that Ireland can achieve the ambitious climate and energy targets set by the European Commission for 2030 and 2050. Data collated from offshore surveys, which will prove vital in the further development of the offshore wind industry in Ireland, is clearly aligned with this priority.

Attachment 4.11 included.

Yes No Not Applicable

Declaration and Consent

I declare that all information provided with this application, including this completed form and all attachments confirmed as included in the application checklist, is correct at the time of submission and that I will notify MARA of any changes to this information that may arise during the application process. MARA may, by notice in writing given to the applicant, require the applicant to provide in the specified form, by affidavit or otherwise, such additional information in relation to any matter to which the application relates as MARA reasonably considers necessary to assist it to determine the application.

By submitting this application form, I agree that certain details provided may be published on MARA's website and that the information provided in this form will be processed and retained by MARA and may be shared with bodies appropriate to assessing aspects of this application in furtherance of consideration of the granting of a MUL in accordance with the MAP Act.

This consent relates to this application and to any further information provided by me, or on my behalf, for the purposes of this application.
