Paula,

Thank you for the correspondence issued in respect of MUL260020.

We have reviewed the documentation with our consultants and are currently assessing the amendments required to the submitted Natura Impact Statement. To ensure that the revised submission fully addresses MARA's requirements, we would appreciate clarification as to whether our understanding of the principal issues is correct, namely:

- The requirement to assess within the NIS a number of qualifying interests and impact pathways identified in MARA's AA Screening Determination that were screened out at AA Screening stage.
- The requirement to update the in-combination assessment to include additional applications submitted since completion of the original NIS, including the recent Waterways Ireland MUL application.

In addition, due to annual leave commitments affecting key specialist staff involved in the preparation and review of the revised NIS, we would respectfully request an extension of one week to the current submission deadline of 5 November.

We would be grateful if you could advise on the above at your earliest convenience.

Regards,

John Moloney B.Eng, MSc, C.Eng | Senior Executive Engineer
