Maritime Usage Licence (MUL)

General Application (Form MUL1)

Important information:

Applicants are strongly advised to read the "[Guidance Note for Applicants applying for a Maritime Usage Licence](#)" before completing this application.

The application form and supporting documentation, including confirmation of payment of fee, must be submitted to licence@mara.gov.ie.

Complete this form electronically using the free text and tick boxes provided, free text boxes will expand as required. Responses should, in so far as is possible, clearly and concisely address the information requested. Where appropriate, supporting documentation may be submitted for assessment, providing that any information relevant to the application is clearly referenced in the application form.

Before completing this form, the declaration and consent at the end of the application form should be read.

Application Fee:

An application fee of EUR €2,000 applies for each Maritime Usage Licence (MUL) application.

This requirement is detailed in legislation:

Section 117(1) of the Maritime Area Planning Act 2021 and Maritime Area Usage (Licence Fees) Regulations 2023, SI No 402/2003.

The application fee must be paid by Electronic Funds Transfer (EFT) to the Maritime Area Regulatory Authority (MARA). MARA Bank Details are provided upon request by email to licence@mara.gov.ie

Proof of application fee payment /confirmation of funds transfer must be provided with the application documentation.

Should the Maritime Usage Licensing application screen out for Appropriate Assessment, a refund of EUR €1,000 applies.

Privacy Policy

MARA may require applicants to provide certain personal data in order to carry out its legislative and administrative functions. MARA will treat all personal data that an applicant provides in accordance with MARA's obligations under data protection legislation, including the Data Protection Act 2018 and the EU General Data Protection Regulation (GDPR). A Privacy Statement explaining how MARA, as the Data Controller, will process the personal data the applicant provides, how that information will be used and what rights the applicant may exercise in relation to its personal data, is available in this link: [Privacy Policy - MARA - The Maritime Regulator](#)

Freedom of Information/Access to Information on the Environment

MARA is a public body for the purposes of the Freedom of Information Act 2014, as amended (the "FOI Act") and is also subject to the European Communities (Access to Information on the Environment) Regulations 2007 -2018 (the "AIE Regulations") and MARA may be required to disclose information and records provided by the applicant in response to a request made under the FOI Act and/or the AIE Regulations, subject to applicable exemptions. Where the applicant considers that any information supplied to MARA is commercially sensitive, confidential or otherwise exempt from disclosure under the FOI Act or the AIE Regulations, the applicant must clearly identify such information at the time. Notwithstanding this, the final decision on disclosure rests with MARA, in accordance with the applicable legislation. The applicant must, upon reasonable request and within a reasonable timeframe, provide all necessary assistance and cooperation to MARA in connection with any request for information made under the FOI Act and/or AIE Regulations.

Confidential/Commercially Sensitive Information

Applicants are asked to consider if any of the information supplied by them in their application to MARA is commercially sensitive and/or confidential. The applicant should clearly identify and separate the specific sections of their application containing such information. The applicant should specify the reasons for its confidentiality/sensitivity with regard to the FOI Act and/or AIE Regulations.

Form MUL1 – Application for a Maritime Usage Licence (MUL) for an activity listed in Schedule 7 of the MAP Act

Part 1 Activity in Schedule 7 and relevant section of the MAP Act

1.1 Part 1 Activity in Schedule 7, for which this MUL application is made.

Tick Maritime Usage applicable to the purpose of the MUL. The Applicant should refer to the MUL Guidance Note for Applicants before completing this section.	
1. Dredging (including dredging involving the use of a device to remove any material, whether or not suspended in water, from one part of the seabed to another part of the seabed) other than — (a) dredging carried out to create a new harbour, berth or waterway, or to deepen existing facilities in order to allow access for larger ships, or (b) dredging ancillary to development authorised under the Act of 2000, whether or not it involves the removal of any material from the sea or seabed.	☒
2. Marine environmental surveys for the purposes of scientific discovery or research.	☐
3. Marine environmental surveys for the purposes of site investigation or in support of an application under Part XXI of the Act of 2000.	☐
4. The installation or placement of navigational markers or aids to navigation, or both, not undertaken or authorised by the Commissioners of Irish Lights.	☐
5. The installation of non-permanent platforms, pontoons or slipways.	☐
6. The deposit of any substance or object, either in the sea or on or under the seabed, from — (a) a vehicle, vessel (including a craft capable of travelling on, in or under water, whether or not self-propelled), boat, aircraft or marine structure (other than a pipeline), (b) a container floating in the sea, or (c) a structure on land constructed or adapted wholly or mainly for the purpose of depositing solids in the sea.	☐
7. The use of a vehicle, vessel (including a craft capable of travelling on, in or under water, whether or not self-propelled), boat, aircraft, marine structure (other than a pipeline) or floating container to remove any substance or object from the seabed.	☐
8. The use of explosives not related to development authorised under the Act of 2000 and not requiring authorisation under any other enactment.	☐
9. The maintenance of any cable, pipeline, oil, gas or carbon storage facility structure that does not require an authorisation (whether the authorisation takes the form of the grant of a licence, consent, approval or any other type of authorisation) under any other enactment in order to be undertaken.	☐
10. The harvesting, disturbance or removal of seaweed, whether growing or rooted on the seabed, or deposited in or washed up thereon by the action of any one or more than one of the following: (a) tides; (b) winds; (c) waves.	☐
11. The deposit, construction or removal of any mooring not requiring authorisation under any other enactment.	☐
12. (a) The removal of beach material from, or the disturbance of beach material in, the maritime area otherwise than in the course of the ordinary or reasonable recreational enjoyment of the maritime area. 12 (b) In this paragraph, "beach material" means sand, clay, gravel, shingle, stones, rocks, mineral substances, seashells, coral and maerl and any flora, in or on the surface of the seabed or suspended in the water of the maritime area, and includes outcrops of rock or any other mineral substance above the surface of the seabed.	☐
13. The laying or installation of telecommunications cables or ducting by or between coastal States where such cables or ducting pass through the exclusive economic zone (as construed in accordance with the Act of 2021) or the continental shelf but do not land in the State.	☐
14. A maritime usage specified, for the purposes of this paragraph, in regulations made under section 113(2)."	☐

Part 3 Details of Maritime Usage

3.1 Maritime Usage

- A. Provide a brief description of proposed Maritime Usage.

Additional information can be provided as Attachment 3.1.

The proposed maritime usage comprises routine maintenance dredging of accumulated sediments within the existing navigational channel upstream and downstream of Sarsfield Lock, Limerick City. Dredging will be confined to historically dredged areas and is required to maintain safe navigable depths for inland navigation. The activity involves suction dredging of predominantly fine silt and clay material, with controlled discharge of fine sediments to the main channel of the River Shannon during ebb tides. Limited coarse material will be removed separately and transported to a licensed waste facility on land.

No deepening, expansion, or creation of new maritime infrastructure is proposed.

- B. Attachment 3.1 included.

Yes ☐ No ☐ Not Applicable ☒

3.2 Describe the purpose of the proposed Maritime Usage, with reference to the classes of usage in Schedule 7 of the MAP Act.

The purpose of the proposed maritime usage is to facilitate maintenance dredging, a Schedule 7 activity under the Maritime Area Planning Act 2021, to ensure continued safe operation of existing inland navigation infrastructure at Sarsfield Lock.

The activity is not directly connected with development, does not alter the footprint of the navigational channel, and does not constitute capital dredging.

3.3 Duration

- A. Indicate the overall MUL duration requested. Indicate the duration of any individual activities included in the overall activity. Give reasons for the proposed durations. Indicate any seasonal, vessel or other schedule constraints.

Additional information can be provided as Attachment 3.3.

A multi-year Maritime Usage Licence of up to 10 No. years is requested to allow for periodic maintenance dredging as required, subject to sediment accumulation rates. This will also align with the Dumping at Sea permit that has been applied for to the EPA and allows for time for the Dumping At Sea to be granted.

Individual dredging campaigns will be short-term, typically of limited duration (approximately 15 days per campaign), and will occur on an intermittent basis within the licence period. Dredging will be undertaken seasonally, within agreed environmental windows.

B. Attachment 3.3 included.

Yes ☐ No ☐ Not Applicable ☒

3.4 Describe the area of proposed Maritime Usage

A. State the total size of the Maritime Area (in m², ha or km², as appropriate), which is the subject of the application.

The total size of the area being covered by the MUL is 40,943 m². MUL Area A is 22,457 m². MUL Area B is 18,486 m².

B. Attach map, titled 'Proposed MUL Map' and GIS Shapefiles outlining the proposed Maritime Area(s). If the application relates to more than one area, each area should be labelled on the accompanying maps/drawings and its area provided. The map(s)/drawing(s) should be included as Attachment 3.4. List the attached map/drawing number(s) and map/drawing name(s) in the space below.

Map(s)/GIS Shapefiles must comply with 'MARA Technical Mapping Guidance Notes for MAC/MUL Applications in the Maritime Area under the Maritime Area Planning Act 2021 (MAPA)'.

3.5 Describe the location of proposed Maritime Usage

A. Provide the distance in kilometres and direction of the main body of the proposed Maritime Usage area from the shore at its closest point.

The proposed Maritime Usage is located within the River Shannon and Abbey River at Limerick City and is adjacent to the shoreline.
The maritime usage area lies within the tidal reach of the River Shannon and is continuous with existing navigational infrastructure.

B. Attach map(s)/drawing(s) showing the location of the proposed Maritime Usage. The attached map/drawing number(s) and map/drawing name(s) should also be listed in the space below. The map(s)/drawing(s) should be included as Attachment 3.5.

Map(s)/GIS Shapefiles must comply with 'MARA Technical Mapping Guidance Notes for MAC/MUL Applications in the Maritime Area under the Maritime Area Planning Act 2021 (MAPA)'.

3.6 Ownership

A. Is any part of the Maritime Area within the proposed site in private ownership?

Yes ☐ No ☒

B. If yes, indicate on a drawing/map the area concerned in relation to the proposed maritime usage area and provide a letter confirming that the Applicant has obtained all necessary consents from the relevant owner(s).

C. Is the Applicant aware of any actual or claimed legal rights or interests held by third parties in the proposed site that may be affected by the proposed Maritime Activity?

Yes ☐ No ☒

D. If yes, indicate on a drawing/map the area concerned in relation to the proposed maritime usage area and provide a letter confirming that the Applicant has obtained all necessary consents from the relevant owner(s) of such legal rights or interests.

E. The letter(s) and drawing(s)/map(s) referred to in B and D above should be included as Attachment 3.6. List the attached letters, map/drawing number(s) and map/drawing name(s) in the space below.

3.7 Planning permission and/or other authorisation(s)

A. Does the proposed Usage require planning permission and/or other authorisation(s), or is it ancillary to or part of to a proposed development which requires planning permission and/or other authorisation(s)?

Yes ☐ No ☒

B. If yes, what is the status of the planning and/or other authorisation(s)? If applicable, provide a brief description of the proposed development, to which the proposed Maritime Usage is ancillary.

Provide the file reference number(s) and link(s) to the websites where information on the planning and/or other authorisation application(s) and/or planning permission/ authorisation(s) can be obtained.

4.3 Report for Appropriate Assessment Screening

- A. Is the proposed Maritime Usage directly connected with or necessary to the management of a European site?

Yes ☐ No ☒

- B. If not, provide an Appropriate Assessment screening report to provide sufficient information for MARA to undertake screening to determine if an Appropriate Assessment is required of the implications of the proposed Maritime Usage alone, or in combination with other plans or projects, for any relevant European site, in view of the site's conservation objectives.

If the Applicant has already determined that it is likely that an Appropriate Assessment will be required and have prepared an NIS, it may be submitted.

The Appropriate Assessment screening report and/or NIS must be prepared by a suitably qualified person, and a summary of the person's qualifications and experience must be included in the report/NIS.

The Appropriate Assessment screening report and/or NIS should be provided as Attachment 4.3.

Environmental Impact Assessment (EIA) Directive

4.7 EIA Screening

- A. With reference to Parts 1 and 2 of Schedule 5 of the Planning and Development Regulations, S.I. 600 of 2001, as amended confirm that the activity:
- i. Is not of a class listed, where no quantity, area or other limit is specified in that Part, or
 - ii. Does not either equal or exceed, any relevant quantity, area or other limit specified for a class listed in that Part.

Yes – is not of a class/does not equal or exceed a threshold	☒
No – is of a class/equals or exceeds a threshold	☐

- B. If yes, confirm if the activity is of a class listed in Part 2 of Schedule 5 of the Planning and Development Regulations, S.I. 600 of 2001, as amended, but does not equal or exceed the relevant quantity.

Yes ☐ No ☐

- C. If yes to '4.7 B', provide the information for EIA screening specified in Schedule 7A of the Planning and Development Regulations, S.I. 600 of 2001, as amended. The information specified in Schedule 7A should be provided as Attachment 4.7.

Attachment 4.7 included.

UN Convention on the Law of the Sea and the Maritime Jurisdiction Act

- 4.8 Provide sufficient information addressing the consistency of the proposed Maritime Usage with the Irish State's obligations under the UN Convention on the Law of the Sea and the Maritime Jurisdiction Act.

Additional information can be provided as Attachment 4.8.

The proposed maritime usage is consistent with the Irish State's obligations under the United Nations Convention on the Law of the Sea (UNCLOS) and the Maritime Jurisdiction Act 2021.

The activity comprises routine maintenance dredging within Ireland's internal waters, specifically within the tidal reach of the River Shannon at Limerick City, an area over which the State exercises full sovereignty in accordance with UNCLOS.

The proposed maritime usage does not interfere with international navigation, does not affect the rights or freedoms of other States, and does not involve activities beyond the limits of national maritime jurisdiction.

The activity is subject to regulation under national legislation, including the Maritime Area Planning Act 2021 and the Dumping at Sea Act, and will be carried out in compliance with all applicable environmental protection obligations arising under UNCLOS and associated international conventions.

Attachment 4.8 included.

Yes ☐ No ☒ Not Applicable ☐

Climate Action and Low Carbon Act of 2015, as amended

4.9 Provide sufficient information addressing the consistency of the proposed Maritime Usage with achieving the National Climate Objective, as defined in the Climate Action and Low Carbon Act of 2015, as amended.

Additional information can be provided as Attachment 4.9.

The proposed maritime usage is consistent with the National Climate Objective as defined in the Climate Action and Low Carbon Development Act 2015, as amended.

The activity comprises routine maintenance dredging of existing navigational infrastructure and does not involve new development, expansion of maritime footprint, or increased capacity.

The works are of limited duration and frequency and will utilise standard plant and vessels operating for short periods only. As such, the proposed maritime usage will result in temporary and minor greenhouse gas emissions associated with vessel and equipment operation.

The proposed maritime usage supports the continued safe operation of existing inland navigation infrastructure, which in turn facilitates sustainable transport and recreational use of the waterways. No long-term or significant adverse effects on Ireland's ability to achieve the National Climate Objective are anticipated.

Attachment 4.9 included.

Yes ☐ No ☐ Not Applicable ☒

4th National Biodiversity Action Plan 2023 – 2030

4.10 Provide sufficient information addressing the consistency of the proposed Maritime Usage with the 4th National Biodiversity Action Plan 2023 – 2030.

Additional information can be provided as Attachment 4.10.

The proposed maritime usage is consistent with the objectives of the 4th National Biodiversity Action Plan 2023-2030.

The activity comprises routine maintenance dredging within an existing navigational channel and is confined to historically disturbed areas. No new habitat loss, fragmentation, or alteration of the spatial extent of habitats is proposed.

Potential impacts on biodiversity have been assessed through Appropriate Assessment screening and the preparation of a Natura Impact Statement, supported by ecological surveys and numerical modelling. These assessments identify potential temporary and localised effects only, with no adverse effects on the integrity of designated sites, subject to the implementation of mitigation measures.

The project incorporates mitigation and best-practice measures to avoid or minimise disturbance to protected species and habitats, including timing controls, method statements, and ecological oversight where required. With these measures in place, the proposed maritime usage will not adversely affect biodiversity and is consistent with national objectives.

Attachment 4.10 included.

Yes ☐ No ☐ Not Applicable ☒

National or European Strategic or Policy Objectives

4.11 Provide any additional relevant information with regard to the overall purpose of the proposed maritime usage, with reference to, e.g. National or European strategic or policy objectives and national targets, and strategic research objectives.

Additional information can be included as Attachment 4.11.

The proposed maritime usage supports national and European strategic and policy objectives relating to the sustainable management and maintenance of existing maritime and inland waterway infrastructure. Waterways Ireland is the statutory body responsible for the management, maintenance and development of inland navigable waterways in Ireland, and the proposed maintenance dredging forms part of its ongoing statutory functions to ensure safe navigation and public access.

The activity is consistent with the objectives of the National Marine Planning Framework, including the sustainable use of marine resources, protection of the marine environment, and facilitation of appropriate maritime activities within existing operational areas.

The proposed maritime usage aligns with European policy objectives under the EU Habitats and Birds Directives through compliance with Appropriate Assessment requirements and the implementation of mitigation measures identified in the Natura Impact Statement.

By maintaining existing navigation infrastructure without expansion or intensification, the proposed maritime usage contributes to the long-term sustainable use of Ireland's maritime area in line with national and European policy objectives.

Attachment 4.11 included.
