Paul,

We did receive the report, thanks. Approval to lay the cable under the Continental Shelf Act is implicit in our approval of the route which we gave you some time ago.

Regards
Peter

Peter,

Can I just check with you that you received this document?

Also, I understand that if a development is planned in certain designated waters consent can be required under the Continental Shelf Act 1968. Can you confirm if the proposed path of the East West Interconnector (landfalls at North Dublin and North Wales) would traverse any such designated waters? If a meeting or phone call would help to talk through any aspects we are available at short notice.

Many Thanks,

Paul
